INTERESTS

-Defense
-Foreign Affairs
-Astronomy
-Swimming
-Foosball

CORE QUALIFICATIONS

TECH SKILLS

Machine Learning
Artificial Neural Networks
Computer Vision
Python, Django
Java, C
HTML, CSS, JavaScript
Matlab, MySQL

SOFT SKILLS

Communication Skills
Interpersonal Skills
Adaptability
Leadership Skills
Team Management Skills

WORK EXPERIENCE

INTERNSHIP AT AIRTEL

NOC Manesar | JAN 2020 - Ongoing

- Currently working in Airtel as a graduate engineer trainee.
- Developing a centralized software for DNS Team to automate their tasks and manage database. The software has database connectivity with MySQL and can communicate with Linux servers.
- Technologies: Python, Django, MySQL, HTML, CSS, Javascript

PROJECTS

INTERNSHIP AT BITS PILANI

BITS Pilani | JUNE 2019 - JULY 2019

- Worked as a research intern on the topic Computer Stereo Vision.
- The goal was to study various technique and understand how depth can be calculated in a 2-D image.
- Technologies: Python, Computer Vision, ML

INDOOR NAVIGATION

NIIT University | JAN 2019 - APRIL 2019

- A research and development project which aims to provide solution for indoor navigation in large buildings and complexes.
- A test app which can show the location of user inside a complex.
- Technologies: Python, Android, Geo Local Design.

FACE DETECTION AND RECOGNITION

NIIT University | JAN 2019 - APRIL 2019

- A capstone project to develop a mobile application for face detection and recognition.
- Experimental results show average accuracy of around 98%.
- Technologies: Python, Computer Vision, ML
